Adani University — Faculty of Engineering Science and Technology (2024 - 2028)

B.Tech. in Computer Science and Engineering (AI & ML) — CGPA: 8.9/10

Puna International School - 12th (2024)

Grade 12(CBSE) — 90%

ASIA English School (2022)

Grade 10(CBSE) — 94%

PROJECTS

Vine CMS | *Next.js, TypeScript, Convex, Tailwind CSS, Shadcn, TipTap, Fumadocs*

- Built a multi-tenant headless CMS with workspace-based dashboards, rich-text editing, media management, and API-key-based public content delivery.
- Implemented authentication, database operations, and file storage with Convex, and shipped a documented public API for posts, authors, categories, tags, and workspace stats.

Zendra PDF | *Next.js, TS, Better Auth, Supabase (PostgreSQL), Drizzle, TailwindCSS, Shadcn, Python, FastAPI, Pincone, Langchain, Cloudflare*

- Built a full-stack platform that turns PDF generation into a one-click automated workflow.
- Integrated auth, storage, and AI-powered document generation for a seamless user experience.
- **Links:** [Live Deployment](#) | [Source Code](#)

ASPDC Website | *Next.js, TS, NeonDB, Drizzle, TailwindCSS, Shadcn, Zenblog*

- Modern website for the university programming club with clean transitions and strong performance.
- Content-driven experience built on Zenblog.
- **Links:** [Live Deployment](#) | [Source Code](#)

Vision and Path (Client Website) | *Next.js, TypeScript, Tailwind CSS, Framer Motion, Groq SDK, Calendly, Vercel*

- Built and deployed a client website for a U.S.-based career services company focused on job placement, career coaching, and lead generation.
- Developed service, contact, and landing pages with structured SEO metadata, FAQ schema, testimonials, Calendly booking integration, and an AI assistant for visitor queries.
